

## GAS TURBINE AUXILLIARY SYSTEMS

Exhaust Silencing Systems

Intake Silencing Systems

Inlet Filter Houses

Bypass Systems

Anti-Icing / Inlet Heating Systems

Inlet Cooling Systems

Auxiliary Skids

**Exhaust Diffusers / Plenums**

## PERFORMANCE GUARANTEE

At EnergyLink International we proudly stand behind everything we do. Period. That is why we offer an unparalleled performance guarantee on our gas turbine auxiliary system products. Through our proven designs, extensive experience and advanced analysis, our team of leading experts will not only meet, but exceed, the most stringent performance standards throughout the world.

## EXHAUST DIFFUSERS

Diffusers are located in one of the most volatile environments in a gas turbine power plant. The extreme heat, vibration and high velocity of the exhaust gases are the major factors to consider in how the diffuser should be designed and built to perform. EnergyLink International is a trusted supplier of diffusers that have a unique geometry to diffuse highly turbulent exhaust. Made with quality materials, our diffusers are built to last and outperform.

## ENERGYLINK ADVANTAGE

- Increased pressure recovery for a wide range of operating conditions
- Low total cost for fabrication
- High-quality construction for reliable long-life
- Our Diffusers are specifically designed to cope with strong gas turbine exhaust gas swirl characteristics, high gas velocities, and high temperatures.
- Negligible pressure drop
- No reduction in engine efficiency
- Low cost operation & maintenance
