

NOISE MANAGEMENT SOLUTIONS

Noise Control Engineering Services

Acoustic Buildings

Turnkey Buildings

Enclosures

Barriers

Blowdown & Vent Silencers

Ventilation Silencing Systems

Site-Wide Noise Guarantee

PERFORMANCE GUARANTEE

At EnergyLink International we proudly stand behind everything we do. Period. That is why we offer an unparalleled guarantee on noise control solutions. Through our proven designs, extensive experience and advanced analysis, our team of leading experts will not only meet, but exceed, the most stringent noise regulations throughout the world.

ACOUSTIC BUILDINGS

The sky is the limit on what we can achieve together. From state-of-the-art design, extensive construction experience and a portfolio of proprietary acoustical and non-acoustical assemblies, our team's first-hand experience and sizable portfolio of small, mid and large-scale buildings continues to set us apart. This combined with our vast network of pre-qualified low-cost country manufacturing ensures we can design and fabricate essential building systems everywhere you are more efficiently. This includes conventional steel, preengineered steel and hybrid structures, ventilation, silencing and acoustical envelopes.

ENERGYLINK ADVANTAGE

- Our comprehensive suite of sophisticated acoustical wall and roof assemblies up to STC 68 are tested and proven in lab and field conditions
- Our acoustic systems provide effective control over the entire noise spectrum and are specifically adapted to reduce tonal and low frequency noise
- Our optimization of a building's noise attenuation balances acoustical wall and roof assemblies with ventilation and other facility noise controls to efficiently reduce environmental noise levels at the lowest cost to you
- Our goal is the same as yours, we don't over-design, so you don't over-
- As the premier provider of full-scope acoustic buildings, enclosures, barriers and silencing equipment, we custom design to meet specific requirements for a variety of industries
