TURNKEY BUILDINGS

Leave the complexities to us. EnergyLink International's team has extensive experience in creating turnkey buildings for a variety of industries and applications. Our extensive team has the disciplines, experience and knowledge to build a turnkey solution for your unique situation. Right from the start, EnergyLink International's engineering and design professionals collaborate with your team to offer fully integrated services, including: Civil, Structural, Mechanical, Electrical, Acoustical, Instrumentation & Controls. We then integrate our network of trusted suppliers to ensure overall efficiencies and solid manufactured deliverables. And finally, we are on the ground throughout the entire construction process, creating a safe and productive environment while achieving optimal performance levels to ensure your building is completed on-time and on-budget.

ENERGYLINK ADVANTAGE

Our multi-disciplinary teams of leading experts cover the full scope of building supply, including:

- Acoustic in-situ or panelized assemblies
- Building steel structures (conventional, hybrid and pre-engineered)
- Overhead cranes, jib cranes and monorails
- Mechanical heating, ventilation and air conditioning systems
- Electrical distribution and lighting
- Elevators
- Emergency power systems
- Fire suppression and detection systems
- Lighting protection systems
- Masonry and foundations
- Acoustic and conventional doors, windows, frames and hardware
- Acoustic and conventional overhead doors
- Acoustic and non-acoustic windows
- Mezzanines and platforms
- Interior and exterior finishes
