Lisa is a valued member of the EnergyLink team with more than seventeen years of professional experience in Project Management, Design, Proposals, Industrial and Commercial Construction as well as Project Controls Management. Lisa's extensive background combined with her diverse skill set and customer centric approach has made her a recognized leader throughout the power sector – providing a seamless, efficient and results driven experience with the projects she is involved with. Always at the forefront, Lisa's ability to solve complex challenges through world-class solutions continues to drive her achievements and is what sets her apart.

Lisa began her career at Kiewit Energy Group in 2007 as a Subcontractors Field Engineer for Scaffolding and Structural Steel. She was later promoted to a Schedule Engineer. In 2008 she was recruited by Kellogg Brown and Root Inc as a Senior Specialist Planner / Scheduler. In 2012 Lisa joined Valerus Compression Services as a Senior Planner / Scheduler. Lisa then transitioned to Express Integrated Technologies in 2013 where she was initially hired as a Master Scheduler but was promoted a year later to a Project Manager. In 2017 Lisa joined INNOVA Global as a Project Manager. Following this Lisa was recruited by Matrix PDM as a Project Manager in 2019 and then moved to American Electric Power in 2021 as an SPP Project Controls Supervisor. In 2023 Lisa joined EnergyLink International as a Project Manager where she continues to deliver the highest standards in quality execution and deliverables for our valued clients.

Lisa has a BA in Psychological Sciences from Purdue University and is working towards her MBA in Finance at Ohio State University.
