

QUALITY POLICY

OUR MISSION

To empower energy producers and industries with superior air emissions and acoustic mitigation through advanced technologies, quality products, dedicated services, and environmentally responsible solutions.

OUR VISION

Connecting our valued customers to a better way.

OUR SUCCESS

Success depends on providing the highest level of customer satisfaction while striving for continual improvement.

ENERGYLINK WILL ACHIEVE THIS BY:

- Employing collaborative team members who are thought leaders and have the drive and discipline to deliver more for our valued clients,
- Always striving to be Partner of Choice - creating long-term partnerships with customers and suppliers that share our values and quality objectives,
- Leading by example through high standards and ethical behavior
- Understanding the needs and requirements of our customers to ensure statutory and regulatory compliance,
- Investing our time and resources to ensure EnergyLink is always at the forefront of our ever-evolving industries in developing leading-edge solutions,
- Continually reviewing and evolving the quality management system to maximize opportunities for success,
- Providing Value-Engineering by ensuring all aspects of the project are reviewed and evaluated so we can deliver optimal solutions while driving greater efficiencies and a seamless experience.

The foundation of success at EnergyLink is built on the satisfaction of our customers and having dedicated team members who continuously exceed expectations.

Harold Wong | President and CEO
